

FAQs

WHAT IS A TYPICAL COURSE OF TREATMENT?

The process can take up to 10 treatments to see real results, with most noticeable improvements seen by treatment 4-7. Each treatment session lasts ~1 hour. Improvements in the skin and collagen production will continue over the next 12 months. With a series of treatments, the effects are cumulative. Maintenance needs may be based on age, skin type, overall health, history of sun damage, diet, exercise habits, etc., and could vary in frequency from monthly to quarterly, depending on individual needs and responsiveness. With proper maintenance, results can last 3-5 years.

HOW DOES FACIAL REJUVENATION WORK?

Just like regular acupuncture treatments, it works by delivering blood flow to the face, relaxing muscles and boosting collagen to reduce wrinkles, increase circulation and naturally firm & tone. It also has the added benefit of intensely improving nutrient absorption. The result is a more natural look (versus fillers and injections) that simultaneously promotes detoxification & leaves you with a clearer, more even complexion.

WHAT CAN I EXPECT IMMEDIATELY AFTER TREATMENT?

There may be some immediate redness varying by treatment and individual. This may be similar to a sunburn & can last a few hours to 2-3 days. Some people may experience swelling, soreness or itching, similar again to a sunburn. The itching is a natural histamine reaction and may be intensified in individuals who suffer from allergies. To reduce these effects, we use a nutrient serum and cooling mask after each treatment. The skin will also tend to be drier for up to a week, so it is very important to keep the skin hydrated during this time.

COSMETIC ACUPUNCTURE

PUT YOUR BEST SKIN FORWARD

Acupuncture stimulates the body's own natural healing mechanisms, increasing blood flow to the face for healthy cell production and elimination of damaged cells. These traditional techniques offer a chemical-free alternative to more invasive procedures, with no side effects.

- Slows Signs of Aging
- Softens Lines & Wrinkles
- Tightens Pores & Improves Skin Tone
- Reduces Muscle Tension Contributing To Aging
- Improves Skin Texture & Elasticity
- Reduces Eye Bags & Dark Circles
- Balances Systemic Issues

MICRO/NANO NEEDLING

RESTORE & BOOST COLLAGEN

Stimulates skin into producing both collagen & new skin cells while increasing absorption & utilization of nutrients by 3,000%. Using a precision high-speed adjustable device, micro-punctures penetrate the superficial layers of skin to strengthen & add volume over time.

- Boosts Collagen & Growth Factors
- Increases Cell Turnover
- Improves Skin Texture & Tightens Sagging Skin
- Reduces Lines & Wrinkles
- Visibly Reduces Stretch Marks
- Clinically Treats Scars, Age Spots & Pigment Issues
- Boosts Serum Absorption (3,000x)

TOTAL REJUVENATION COMBO

ACHIEVE THE BEST OF BOTH

The goal of any facial rejuvenation treatment is to make the fibroblasts in the skin produce more collagen. Collagen ultimately provides scaffolding & support for your skin. You can optimize your results by combining our facial rejuvenation services.

The most dramatic results can last anywhere from 18 months to 3 years. These services repair & restore, but time and gravity are inevitable. For best results, repeat the full course of treatment after outcomes fade, or do periodic maintenance treatments.

Unlike cosmetic surgery, no one will ever tell you you've had too much acupuncture.
